

Anurag Jha

Software Engineering Candidate | C++ | Java | Python | DSA

Mumbai, Maharashtra, India | anuragjha0907@gmail.com | +91 9321588152 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Engineering student graduating in 2027 with a strong foundation in C++, Java, Python, Data Structures & Algorithms, Object-Oriented Programming and core computer science concepts. Hands-on experience building practical software applications, with a focus on problem-solving, software development and building reliable solutions.

TECHNICAL SKILLS

Programming: C++, Java, Python, C

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Web Development: HTML5, CSS3, JavaScript

Databases: SQL, PostgreSQL, MongoDB, Supabase

Tools: Git, GitHub, VS Code, Microsoft Excel, Power BI

AI/ML: Artificial Intelligence & Machine Learning — Basics

EDUCATION

Bachelor of Engineering, Computer Science | CGPA: 7.41 | Expected May 2027

Pravin Rohidas Patil College of Engineering and Technology, Bhayandar

HSC | Acharya Ambalal V. Patel Junior College, Vile Parle, Mumbai

SSC | Guru Nanak Mission High School, Andheri, Mumbai

PROJECTS

NimbusVault — Full-Stack File Storage System

- Built a full-stack file storage platform with user authentication, file upload/storage and PostgreSQL-backed data management. Implemented core application workflows and deployed the application on Vercel.
- **Tech:** HTML5, CSS3, JavaScript, Supabase, PostgreSQL, Vercel

AI Recruitment Assistant — Final-Year Project | In Progress

- Building a multi-agent AI recruitment assistant to automate resume analysis, skill matching, candidate scoring, interview-question generation and email drafting. Designing a modular workflow with a central orchestration agent and specialized agents, supported by an interactive interface.
- **Planned Stack:** Python, Streamlit, OpenAI API, LangChain, Prompt Engineering, Multi-Agent AI

Sign Language Recognition

- Developed an academic project for recognizing hand gestures from webcam input and converting sign language into human-readable language. Used computer-vision and deep-learning approaches with hand landmark detection and gesture classification.
- **Tech:** Python, OpenCV, MediaPipe, TensorFlow/Keras, LSTM

Sales Performance Dashboard

- Created an interactive Power BI dashboard to analyze sales performance, revenue trends and regional KPIs, using data transformation and visualization to present business insights.
- **Tech:** Power BI, Power Query, DAX, Data Visualization, Data Modeling

CERTIFICATIONS

- MERN Stack Development — edQuest
- Siemens Job Simulation — Project Management

LEADERSHIP & ACTIVITIES

Former Sports Head — Computer Engineering Department

- Coordinated sports activities and team events; participated in college-level Cricket, Chess and Carrom.

LANGUAGES

English, Hindi, Marathi, Punjabi (Reading & Writing)
